

GS

The Heavy Lever Guillotine

The rigid cast-iron construction provides ideal condition for precise cutting of sheets up to 2 mm thickness. The open clamping device allows to cut unlimited lengths in pusher method.

Cut:

Top blade with counter weight. Clamping device with adjustable clamping pressure, positioned close to cutting line. Cuts possible in the range of 1 up to 530 mm. Blades for materials up to 400 N/mm².

■ Table

Width 530 mm,
Table extension 270 mm

■ Gauge

Back gauge with spring-loaded gauge bar, adjustable by hand wheel

Adjusting range up to 500 mm

Gauge adjustable for angular cuts
